Amendments to the Specification:

Please replace paragraph [0036] with the following amended paragraph:

[0036]   Computer-readable [[M]]memory media, including portable media (such as floppy disk or CD-ROM), may be formed to store the computing module 1101, the event generation modules 1102 and 1103, and the operating data obtaining modules 1104 and 1105 as programs which can be read out by the computers 1201, 1202 and 1203. It is possible to transfer the computing module 1101, the event generation modules 1102 and 1103, and the operating data obtaining modules 1104 and 1105 which are program portions disposed in respective computers from other computers etc. to the storage devices of the computers 1201, 1202 and 1203 through a network, and to load them in the memories of the computers and to execute them by use of CPUs of the computers.
